

# Springville Elementary

**"I would rather give \$20 than sell  
those magazine products."**

December 2018

## Fundraising Stats from 2017-2018

## A New Approach

Using a fundraising company our families and students sold \$5,571 worth of products and our school **only** got to keep \$1,825 of that money. That's about 66% of the money going out the door to a company.

We have 215 students at Springville. If we averaged \$20 per student we would raise \$4,300 and get to keep 100% of the money here for our students!

## What Do Fundraisers Fund?

Instead of selling products you could ask family and friends to donate a few dollars to help our school.

The money we get from fundraisers goes directly back to students through field trips, t-shirts, convocations, guest speakers, and provides funds for those who may need assistance throughout the year. ALL money supports Springville students!

Please consider raising money to donate to our school. The student, class, and grade level who raises the most money will win prizes!

Your child can give the donations to their teacher in an envelope with their name and the amount they raised. Donations should be kept by the child and turned in at one time. Please ask your child's teacher or the office if you have questions.

**Fundraiser Dates:  
November 26 - December 7**

# From the NLCS Nurse

## Influenza (Flu) Facts:

The Flu virus typically peaks between the months of January and February

Symptoms of Flu include: fever, cough, sore throat, runny or stuffy nose, muscle or body aches, headaches, fatigue (tiredness)

The CDC recommends a yearly flu vaccine for everyone 6 months of age and older as the first and most important step in protecting against this serious disease

In addition to getting vaccinated, take everyday preventive steps like staying away from sick people and washing your hands to reduce the spread of germs

If you are sick with flu, stay home from work or school to prevent spreading influenza to others

**Please contact your child's healthcare provider or the Lawrence County Health Department 812-275-3234 to schedule a Flu Vaccine.**

Get up-to-date information, calendar of events, and important updates by visiting our Springville Elementary website. Great layout for mobile devices as well!
